Phone: 661-942-0488 **Website:** www.westside.k12.ca.us

Principal: Justin Holtfretter **District:** Westside Union School District

Grade Levels: TK-8 **Enrollment:** 713

Principal's Message

Del Sur is proud of our distinctive programs provided for students in TK through 8th grade. Our college prep initiative known as AVID, Advancement Via Individual Determination is one of the most prominent programs that supports our career and college goals on campus. The college and career readiness goals we have focused on this year are specifically in the areas of writing and creating specific SMART goals that are self-monitored for progress, which aids in gaining confidence and independence. We are committed to maintaining a safe campus where students are supported academically, socially, and emotionally. We continue to integrate and develop Project Lead the Way Curriculum and STEM based projects throughout the school year. We also offer interventions such as IXL learning and tutoring opportunities during the school day. We believe every child entrusted to our care must be provided with quality instruction. This years' SPARC is directly tied to our Local Control Accountability Plan and Single Plan for Student Achievement goals, providing student achievement and maintaining a safe campus climate. Del Sur School earned WASC (Western Association of School and Colleges) accreditation in 2019, making it one of the few K-8 schools in California with this credential.

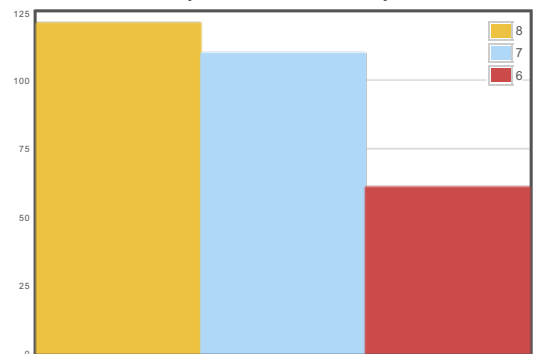

Career and College Readiness Student Outcomes

The Student Support Team (SST) is guided by the ASCA Mindsets and Behaviors for student success and K-12 college-and-career-readiness standards. We use student outcomes to measure the effectiveness of programs for continuous improvement. The following graphs illustrate the number of students who completed a post-secondary options lesson and illustrates knowledge gained. Also reflecting the importance of time management in the post secondary setting.

Career Readiness

SST members at Del Sur along with teachers provide projects on career research including career requirements and education. This year Del Sur 8th grade students were given a lesson on post-secondary options in which they learned about the different college systems, the eligibility requirements of each, as well as the purpose and benefits of trade or technical schools. The graph to the right shows 121 8th grade students gained basic postsecondary knowledge regarding California college options and technical/trade schools. Based on pre/post testing, 75.4% of the students were able to describe the benefits of technical and trade school, 67.8% can describe California's college options, and 40.9% demonstrated knowledge of the A-G requirements.

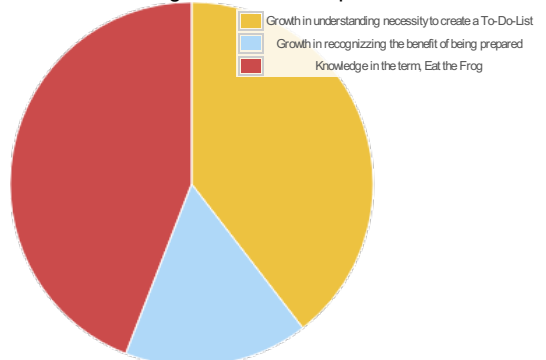

Postsecondary Goal can be Clearly Described

College Readiness

The Del Sur SST members takes pride in the efforts of our student's achievements and acknowledges their significant importance to college readiness. Del Sur recognizes time management as an essential college ready skill. To develop time management skills and promote daily practice, two-hundred and forty-five, 4th - 6th grade students were given a Time Management lesson. Demonstrating the principals and advantages using key functions for positive outcomes. Post assessment displayed an 26.9% growth in understanding the necessity to create a TO-DO-List, 11.16% growth in recognizing the benefit of being prepared and 30.02% growth in understanding the term, "Eat the Frog" (doing the worst task first).

Time Management Skills Acquired/Practiced

21st Century Skills

The Del Sur SST coordinates and monitors several programs that foster "21st" Century Skills within our students. To encourage student's abilities to prosper in a world of change, collaboration, communication and critical thinking are promoted. Programs highlighting self-regulation, emotional intelligence, and responsible social interaction are coached through programs on campus such as: Boy's Town, Leadership Development Through Physical Education (LDTPE), Organization Nation, Advancement Via Individual Determination (AVID), Robotics, Campus Climate Assistants (CCA) and lunch time interventions. Teachers meet monthly with Data Teams to analyze the achievement of their practice and outcomes of their students. The all-encompassing ability to be proficient in the skill of learning, literacy and life skills is the goal.

Additional Achievements:

- NWEA Assessments given three times a year
- School wide 1 to 1 Chrome book technology
- Parent and Teacher collaboration in Google Classroom

Career and College Readiness School Site Programs and Community Partnerships

The SST, along with every staff member at Del Sur School, including our aides and teachers, contribute to our site and community programs. These programs promote the development of career and college readiness skills through technology, team work, and interventions. Site programs and community partnerships provide opportunities for all students to become career and college ready. The Del Sur School campus is known for our hydroponic garden that students maintain with assigned duties, while learning about preservation and recycling. Community support is gratefully received by our student population.

School Site Programs

- StopIt!: Safe Schools Initiative, allowing stakeholders to anonymously report incidents
- Tier 1 Domain: School wide, monthly, Social and Emotional classroom guidance lessons
- Tier 2 Domain: Academic intervention workshops for at risk student clubs
- Weekly meetings of various clubs

Student Support Team

At Del Sur School our team supports begin from TK to 8th grade to ensure a healthy learning environment delivered by talented individuals with diverse educational backgrounds. Together as a team, the SST prepares all students with 21st Century Skills in the domains of academics, college and career, and social/emotional development. Collaboratively, our SST members are qualified and experienced to creatively and professionally serve our school with the resources to advocate and excel for their future. Members are active in the Parent Teacher Association, English Learners Parent Club, Boys Town Site Lead, and At Risk Student Committee. SST professional association memberships include the Association of California School Administrators, American School Counseling Association, and the National Association of School Psychologists. Together, this team provides an equitable student support system to prepare students for career and college.
